

BIAR WALKING TRIP

Friends of the South!

Yes! Once again it is your chance to get to know the Southern parts of the Alicante Mountains. Staying at the splendid Hotel “Finca Fanecaes” in Biar you can enjoy three stunning, strenuous – but gently paced walks on April 26, 27 & 28 (wed, thur, fri).

The Programme is:

Wednesday April 26th

Meet at 10.30 am at service station/cafe off Autovia A7 near Agost

Maigmo circuit 16 km, 617 m ascent, 6 hrs S/B

Well defined tracks throughout and amazing views without the perilous summit paths. Bring a torch if you do not like the dark!

After post-walk refreshments drive to Biar and check-in at hotel. Superb 3 course dinner with wine

Thursday April 27th

Breakfast at hotel

Sierra de Fraire (Biar) 11km, 630m, 5 hrs, S/A

Mostly forest tracks with two ridge paths that provide spectacular views both to the coast and west towards Albacete. A walk right on the edge of the Alicante mountain range with the chance to look around the charming town of Biar.

Another 3 course dinner with wine at hotel

Friday April 28th

Check-out after breakfast

Mijhorn (Xixona) 10km, 800m, 5 hrs

Ascent of the mighty Mijhorn with some exposure (alternative route can be found)
Then descent of the spectacular gorge-like barranco de las Corales with some minor scrambling.

Final drink together and drive home

Accommodation is in double rooms with single beds for those not wanting to share a bed.

The hotel has lovely grounds with shaded terraces – perfect for a pint or two in the evening.
Check it out at www.fincafanecaes.es

The cost will be approximately (depends upon numbers and group discount) 210 Euro per room for 2 persons for 2 nights half board.

In our opinion the standards of food and rooms are really good. Accommodation is limited as it is not a huge hotel – so reserve early if you are interested. A deposit will be required when we know that the trip has enough support to be viable.
