

CBMW Spring Programme 2023
Wednesday 01 Feb to Wednesday 31 May

Message from the Chair

Our 35th year of walking has been a great success and I thank our Leaders and walkers for making this happen. The Autumn programme contained a good variety of walks and we had excellent weather which meant that they were enjoyed by all.

A very successful Start of Season event attracted a number of new walkers and we welcome their contribution to our walking programme. We also had a fantastic 35th anniversary event followed by a very enjoyable Christmas party. The Spring programme contains the information you need about the Almond Blossom event on 15/2/23 and the End of Season event on 24/5/23. David and Theresa Brain are retiring from their roles of Social Secretary in May. We thank them for all their hard work to ensure that not only do we walk together but we also are able to socialise together. I also thank all our Leaders and the Secretariat for everything they do to make sure we have an interesting walking programme as without their efforts we would not be moving forward into our 36th year!

To continue our success we do need the interest of more walkers to be at the front and lead walks as our Leaders group is reducing – age, illness and Brexit are the main factors for this. To help walkers think about becoming a Leader we are holding an advice and guidance session on 24/2/23 to give you more information about what it entails and the support you will get to help you take on a new role. I do hope that there will be interest in how to become a Leader.

I look forward to the Spring programme and hope to see many of you on walks and at our social events,

Veronica

We have a Facebook Group page open to anyone who walks with us. You must already have a Facebook account to join the group. See our website (Contact Us) for details of how to apply to join the group.

ROUTE GRADES

A - Walks marked with A are on iconic mountains

The mountains in the Costa Blanca region are rugged and the paths are often rough with numerous hazards to cause tripping, loose stones and thick undergrowth. Care is needed at all times. It is very important that walkers assess their ability to complete the walks taking into account the walk gradings below. If you have any doubts about the nature of the walk then please telephone the leader for clarification.

E - Easy: A walk of up to 4½ hours on good surfaced tracks and less than 200 metres total ascent.

M - Moderate: up to 12km, less than 400 metres total ascent and less than 50% rough going.

MS - Moderately Strenuous: Up to 600 metres total ascent and/or no more than 15 km with some rough going taken at a reasonable pace.

S - Strenuous: More than 600 metres total ascent and/or more than 15km with steep, loose or heavily vegetated sections.

VS - Very Strenuous: More than 800 metres total ascent and/or more than 20km with steep, loose or heavily vegetated sections.

X - Experienced walkers routes: Routes which require considerable stamina and/or significant scrambling skills on rough, steep or exposed sections.

Scr - Scrambling: This implies the need for handholds to ascend steep rock pitches with a sense of exposure to vertigo and where a slip could lead to a serious accident.

A - All good tracks

B -Less than half the route on rough ground

C - More than half the route on rough ground

INDIVIDUAL RESPONSIBILITIES

We have a short list of **Conventions** – published in the Info section of the website - which act as guidelines and hopefully are an aid to walkers and leaders alike. Everyone is required to read these Conventions as a condition for walking with us and for downloading each season's programme. A summary of the main points of these is shown below.

1. Arrive at the meeting place in good time. Walks depart promptly at 10:00 unless otherwise noted.
2. Do not leave valuables in your car.
3. Always wear strong-soled shoes or boots suitable for mountain walking.
4. Take a packed lunch and/or other energy snacks and plenty of water, especially in hot weather.
5. Always carry your own first aid kit and a whistle.
6. Carry adequate clothing and always waterproofs as the weather in the mountains can change quickly. Remember that there is always the possibility of having to remain on the mountain during the night in an emergency.
7. Stay in contact with the people ahead of you and behind you particularly at junctions and if too large a gap opens up signal to the leader for a stop so that the gap can be closed.
8. Take all rubbish home with you including orange and banana skins.
9. Do not pick fruit.
10. Walking poles when not in use should be carried with the points facing forwards and down.
11. If a dog is brought along the owner should ensure that the walk is one where dogs are allowed and at all times keep the dog on a lead.
12. In times of bad weather walkers should phone the leader if in doubt about whether the walk will go ahead.
13. If individuals intend to leave the group during a walk they should inform the leader and ensure that their names are removed from the
14. Everyone who walks with us is expected to make an annual contribution towards the cost of our websites and display the current year's "fob" on their rucksack. One fob only, please. Ideally, ID should always be carried together with a contact name in case of emergency (ICE).

INSURANCE

PLEASE BE AWARE THAT WE DO NOT HAVE PUBLIC LIABILITY INSURANCE therefore we STRONGLY

recommend that individuals who walk with us take out insurance cover for rescue and medical costs in case of accident on our mountain walks. Those who live here can take out extra insurance via www.femecv.com (in Spanish) or www.aacuk.org.uk (in English). If you are just visiting the area for a holiday you should check that your travel insurance covers is sufficient - if not then take out extra cover!

WEATHER

A walk leader may terminate a walk at his/her discretion at any time. During times of persistent bad weather the walk leader will endeavour to ascertain the latest accurate weather conditions predicted in the area of the walk and if the latest information is extreme, or if it has rained (or snowed) excessively during the previous night, the walk leader is not obliged to go to the start of the walk. In times of bad weather please telephone the walk leader if you are in doubt.

AND FINALLY

Remember to check Stop Press on the website for information on any unavoidable changes to walks and new walks added to the programme.

All walks **start at 10 am** unless otherwise indicated.

Shading denotes a lunch option.

Meeting Point descriptions start with town nearest to start followed by Latitude then Longitude (decimalised) of the meeting point (where known). Whilst every effort is made to ensure accuracy the time stated for each walk will always depend on the fitness and ability of the walkers, and the conditions on the day of the walk.

Pass the Km 34 sign and 0.7 km further on take the minor surfaced road going off L (sign for El Trestellador Restaurant) past a large house on the corner. Continue along this surfaced road ignoring road of left for 1.2 km. to a group of casas amidst trees and a trough, which is near the Font Moli Ondara. This is the start and there is parking for 3-4 cars with more room down road. This is a walk that provides absolutely stunning views for the most of the day into the valleys on both sides of the Penyo. The modest 600 metre ascent rewards walkers with beautiful 360 degree views from the top of Penyo Mulero. Being at high altitude it can be cold and snowy in winter with only minimal shade in summer. https://tinyurl.com/y8lwnhao

Wednesday 31 May	Two Rock Arches Circuit Leader Tim Fawle 616 498 505	8 km 4 hrs 300m M/A	Castell de Castells 38.715586, -0.160933 Coming from Castell de Castells on the CV752. Eventually reach an unsurfaced road and walk sign on the right near the Km 7 post and turn right and park here. This is the start and finish point. This circular walk includes a natural ice cave with spectacular views , this is unmarked and is a secret gem. We also return to the Little Rock Arch and a traverse along the northern slopes of Aixorta. Both arches are geological curiosities and probably formed by a harder part of the roof of a cave the remainder of which has fallen in. http://tinyurl.com/mtbd5la
