

SPRING 2026 PROGRAMME

February to May 2026

(Provisional, updated 16/01/2026)

Message from the Chair

We are pleased to present the Spring 2026 walking programme. This programme once again offers a wide variety of walks in the beautiful sierras of the Costa Blanca. We would like to thank the Leaders who have made themselves available to lead these walks, ranging from easy to very strenuous.

A warm welcome to our new Leaders. We hope you enjoy sharing your passion for walking with all CBMW walkers. If you are inspired to become a Leader, please contact me to help arrange support and mentoring from an experienced Leader. You can help us to ensure the continuation of the walking programmes in the future.

The Autumn programme was very successful and the walks and social events were enjoyed by all. A big thankyou to the Leaders and other volunteers who made it a success. Also to the Social Committee for organizing the social events and working on the logistics of the Leaders Meetings.

Whether you are an experienced or novice mountain walker, you are welcome to join our informal group and enjoy the mountains. There are several important factors all walkers to our group need to be aware of: In the drop down menu section on our website, under the item 'new and returning walkers to our group', you will find a list of these factors. If you are unsure about any of these, please contact us: chair@cbmwalkers.org

I hope to see many of you on our walks and at the social events,

Thijs Broer

ROUTE GRADES

A - Walks marked with A are on iconic mountains

The mountains in the Costa Blanca region are rugged and the paths are often rough with numerous hazards to cause tripping, loose stones and thick undergrowth. Care is needed at all times. It is very important that walkers assess their ability to complete the walks taking into account the walk gradings below. If you have any doubts about the nature of the walk then please contact the leader for clarification.

Walk Levels:

E - EASY: Up to 10km and less than 200m ascent, all on good tracks.

M - MODERATE: 10km to 12km and/or between 200m and 400m ascent, with less than half the route on rough ground.

MS - MODERATELY STRENUOUS: 12km to 15km and/or between 400m and 600m ascent, with some rough going.

S - STRENUOUS: 15km to 20km and/or between 600m and 800m ascent; may include steep, loose or heavily vegetated sections.

VS - VERY STRENUOUS: More than 20km and/or more than 800m ascent; may include, loose or heavily vegetated sections.

Terrain:

A - All good tracks

B - Less than half the route on rough ground

C - More than half the route on rough ground

Scr - Scrambling: This implies the need for handholds to ascend steep rock pitches with a sense of exposure to vertigo and where a slip could lead to a serious accident.

X - Experienced walkers routes: Routes which require considerable stamina and/or significant scrambling skills on rough, steep or exposed sections.

INDIVIDUAL RESPONSIBILITIES

We have a short list of Conventions – published in the Info section of the website - which act as guidelines and hopefully are an aid to walkers and leaders alike. Everyone is required to read these Conventions as a condition for walking with us and for downloading each season's programme. A summary of the main points of these is shown below.

1. Arrive at the meeting place provided in the programme - which may be different to that in the "WalksInSpain" link - in good time. Walks depart promptly at 10:00 unless otherwise noted.
2. Do not leave valuables in your car.
3. Always wear strong-soled shoes or boots suitable for mountain walking.
4. Take a packed lunch and/or other energy snacks and plenty of water, especially in hot weather.
5. Always carry your own first aid kit and a whistle.
6. Carry adequate clothing and always waterproofs as the weather in the mountains can change quickly. Remember that there is always the possibility of having to remain on the mountain during the night in an emergency.
7. Stay in contact with the people ahead of you and behind you particularly at junctions and if too large a gap opens up signal to the leader for a stop so that the gap can be closed.
8. Take all rubbish home with you including orange and banana skins.
9. Do not pick fruit.
10. Walking poles when not in use should be carried with the points facing forwards and down.
11. If a dog is brought along the owner should ensure that the walk is one where dogs are allowed and at all times keep the dog on a lead.
12. In times of bad weather walkers should phone the leader if in doubt about whether the walk will go ahead.
13. If individuals intend to leave the group during a walk they should inform the leader and ensure that their names are removed from the leader's book.
14. Everyone who walks with us is expected to make an annual contribution towards the cost of our websites and display the current year's "fob" on their rucksack. One fob only, please. Ideally, ID should always be carried together with a contact name in case of emergency (ICE).

INSURANCE

PLEASE BE AWARE THAT WE DO NOT HAVE PUBLIC LIABILITY INSURANCE therefore we STRONGLY recommend that individuals who walk with us take out insurance cover for rescue and medical costs in case of accident on our mountain walks. Those who live here can take out extra insurance via www.femecv.com (in Spanish) or www.aacuk.org.uk (in English). If you are just visiting the area for a holiday you should check that your travel insurance cover is sufficient - if not then take out extra cover!

WEATHER

A walk leader may terminate a walk at his/her discretion at any time. During times of persistent bad weather the walk leader will endeavour to ascertain the latest accurate weather conditions predicted in the area of the walk and if the latest information is extreme, or if it has rained (or snowed) excessively during the previous night, the walk leader is not obliged to go to the start of the walk. In times of bad weather please contact the walk leader if you are in doubt. Website to check weather forecast www.aemet.es

AND FINALLY

Remember to check Stop Press on the website for information on any unavoidable changes to walks and new walks added to the programme. All walks start at 10 am unless otherwise indicated.

Yellow shading denotes a lunch option.

Meeting Point descriptions (as per the programme Not the WalksInSpain which may differ) start with town nearest to start followed by Latitude then Longitude (decimalised) of the meeting point. Whilst every effort is made to ensure accuracy the time stated for each walk will always depend on the fitness and ability of the walkers, and the conditions on the day of the walk.

Ensure that you are fully prepared for the walks by choosing the correct level of walk for your ability and the weather conditions and that you take with you the correct amount of fluids and sun protection.

Saturday 07 Feb 2026 10:00	A Penyo Mulero – Counterclockwise A Leader(s): Fer Schenk +31 6 15 85 58 62 No dogs	Grade: MS/B Distance: 11 km Ascent: 590 m Time: 4:00	GUADALEST https://maps.google.com/?q=38.66287,-0.206903 Take the CV70 from La Nucia towards Guadalest. Pass the Km 34 sign and 0.7 km further on take the minor surfaced road going off L (sign for El Trestellador Restaurant) past a large house on the corner. Continue along this surfaced road ignoring road of left for 1.2 km. to a group of casas amidst trees and a trough, which is near the Font Moli Ondara. This is the start and there is parking for 3-4 cars with more room down road. This is a walk that provides absolutely stunning views for the most of the day into the valleys on both sides of the Penyo. The modest 600 metre ascent rewards walkers with beautiful 360 degree views from the top of Penyo Mulero. Being at high altitude it can be cold and snowy in winter with only minimal shade in summer. Then drive together to the start at 38.769823,-0.195073. Take the CV/720 either going W from Benichembla or NE from Castells de Castells to Villa Mercedes at km 28. Here the side road to Val de Ebo goes N and is signposted to Petracos. Drive along this road towards Val de Ebo, for approx 3.8km. ,passing Petracos, and find some lay byes on the RHS opposite the barranco. The walk starts with a vaguely marked ascent to Punta d'Alfaro followed by a long pleasant ridge walk and short climb to the summit of Alfaro.This high spot offers wonderful views of the Sierra Serrella before descending by old tracks which lead very steeply down to Barranco Malafi. Barranco Malafi is the grandiose and remote gully formed by the, generally dry, river Malafi. Superb wild flowers in spring and early summer. Bird songs accompany the walker often nightingales and sometimes eagles can be seen. WalksInSpain: https://tinyurl.com/ydevecxj / Komoot: https://bit.ly/4bvcdhb

Go through Confrides until at approx Km 19.4 and find a track off R. Turn onto this rough track and drive up approx. 0.4Km to reach a junction and park. Alternatively, park at the road and walk up the track to this junction.</p> <p>This is a strenuous walk, definitely not for walkers seeking a flat and easy path, but the effort is rewarded by wonderful scenery and interesting terrain. It starts innocently enough with a pleasant easy stroll along the south side of the Barranc del Manecillo before dropping down to the riverbed. This is followed by a short but adventurous walk along the riverbed. The long climb up to El Collada starts on a nice path that zig zags up out of the riverbed to reach a track. This meandering track leads up to a path where the real ascent begins and some path finding skills are necessary. Next the route heads W and crosses the top of a ridge where wonderful views of the Barranco del Moro can be enjoyed. A steep but worthwhile climb leads to a deep nevera and a short scramble to the summit of Pla de la Casa. There is a pleasant plateau to cross before tackling the steep descent down to a cull. More path finding skills are needed to reach the pass of Les Bardals. From here a steep descent has to be negotiated on a very rough path before arriving at the track back to the start.</p> <p>WalksInSpain: https://tinyurl.com/y8qyrdaz / Komoot: https://bit.ly/3ZdAVpi</p>

Saturday 30 May 2026 10:00	Montgo Denia X circuit from Los Lagos Leader(s): Norrie Rolland +44 7831 284 618 No dogs	Grade: S/B Distance: 10 km Ascent: 606 m Time: 5:00	JESUS POBRE https://maps.google.com/?q=38.801992,0.094628 Los Lagos. km 6 on CV735 between La Xara (near Denia) and Javea. Turn into Los Lagos, then immediately left and park. The walk starts from Los Largos where there is plenty of parking. A gentle ascent for 20 minutes through the wooded area behind Los Largos before reaching the gully. The gully is a steep climb of about 1 hour with sections of loose stones in places. Once at the top the walk continues with a gentle climb on good tracks. The final ascent becomes a little steeper on a very rocky path of the "pointy type" often experienced in this area. So sticks are a help. Spectacular views from the cross towards both Javea and Denia. Cameras a must. The descent initially follows the same rocky path down until it becomes a gentle descent on good paths. The final section is very scree like where again sticks would be a plus. Note this walk is very weather dependent as Montgó often has a "hat" even when the weather is good elsewhere. The walk may need to be modified if this is the case to miss the final ascent to the top.
